ROYAL GREETING TOMORROW

Cowes, Jan. 2.—Lord Roberts arrived here from Africa today. He came ashore in the Queen's launch. There was a tremendous demonstration. Tomorrow will be Robert's day in London and preparations for the reception are well under way. The decorations will be elaborate along the line of march.

HOLDS THAT VICE MUST BE REGULATED

Gov. Odell, of New York, in His Message, Says That it Cannot Be Eradicated.

Albany, N. Y., Jan. 2.—New York's legislature met at 11 o'clock today and was given over to organization. The feature was Governor Odell's message which deprecates the fact that incorporation laws were so illiberal and places the blame of the political troubles in New York City upon divided responsibility, but claims that vice never can be entirely eradicated but should be regulated.

KRUGER MAY VISIT AMERICA.

Would Please Him to Go to the United States if Possible.

London, Jan. 2.—A dispatch to the Morning Post from Brussels says that in replying to an address from a deputation of the American Boer Central committee, ex-President Kruger expressed a wish to visit the United States when he has concluded a course of treatment in the Ophthalmic hospital at Utrecht.

GOV. GEO. W. PECK IN RUBBER BUSINESS

Will Be at the Grand Hotel in Janesville Tomorrow Afternoon and Evening.

Ex-Governor George W. Peck has been elected president of the San Pedro Rubber Plantation company and is devoting his entire time to business of that concern. The San Pedro Rubber Plantation is a corporation created by the laws of Wisconsin with its principal office in the city of Milwaukee. The company was incorporated for the purpose of exploiting the San Pedro plantation and other rubber plantations owned by it in Mexico, for the further purpose of applying the principal of corporate management and corporate responsibility to

a business heretofore conducted by co-operative institutions.

The properties of this company comprise several contiguous tracts with a total area of 18,533.25 acres, located in the Department of Palenque (famous for its ruins of an ancient civilization, and its forests of wild rubber.) State of Chiapas, Republic of Mexico.

Mr. Peck will be at the Grand Hotel tomorrow afternoon and evening to meet anybody who would like to inquire into the rubber plantation business.

ELECTION OF QUAY NOW SEEMS CERTAIN

Receives the Republican Caucus Nomination for U. S. Senator from State of Pennsylvania.

Harrisburg, Pa., Jan. 2.—Matthew S. Quay was practically re-elected United States Senator last night when the republican caucus of 123 members voted unanimously for him. Two absentees sent word they would vote for him, one man in caucus did not vote, and there are at least two others who will jump to him at the first opportunity, although they did not go into the caucus.

Altogether it is claimed that they will give him 128 votes. In caucus Quay on his ballot received 119 votes, John Dalzell 2 votes, and John Stewart two votes, but the two latter names were withdrawn and all went for Quay.

The opposition went all to pieces since the Quay people organized the legislature today, and it is now conceded that Quay will be elected on the first ballot on January 15.

Five Hundred Men in Peril

Wilkesbarre, Pa., Jan. 2.—A heavy explosion of gas occurred in the Holtenbarre mine of the Lehigh and Wilkesbarre Coal company today. It set fire to the woodwork, but this was quickly extinguished.

Five hundred men were at work at the time. All succeeded in getting out safely, with the exception of two.

France Purchases American Art.

Countess Gets a Divorce.

San Francisco, Cal., Jan. 2.—Countess Festetics de Tolna was granted a divorce here. All her charges were accepted as true. The countess alleged indifference and cruelty, and her husband received the severest condemnation of the court. His counter accusations were dismissed with a word.

Sankey Heard in the Tombs.

New York, Jan. 2.—Ira D. Sankey, the evangelist, conducted the last service of the century to take place in the Tombs prison. Sitting in their cells, listening to his voice, were three noted prisoners—Dr. Kennedy, accused of killing Dolly Reynolds; Lawyer Patrick, held in connection with the Rice will mystery, and McDonald, the gambler, who, it is charged, shot four men in Harlem last week.

Collection of Fans.

Queen Victoria has a marvelous collection of fans, and fan-collecting is a hobby of more than one of her descendants, notably of Princess Louise, the duchess of Argyll. One of the fans owned by royalty is a Spanish specimen—a wedding present from the Empress Eugenie to the duchess of York.

The Great Asphalt Lake.

Recent estimates are to the effect that asphalt is being dug out of the famous tar lake of Trinidad—the most notable existing source of the material in the world—at the rate of 80,000 tons per annum. There are still 4,500,000 tons in sight, but at this rate the supply could not last long, were it not that the lake of bitumen referred to is receiving a constant accretion from the bowels of the earth

BEHEAD THE SLAYER OF VON KETTLER

SOLDIER WHO KILLED GERMAN MINISTER EXECUTED.

Two Blows Were Required to Sever the Head Which Was Hung Over the Street in a Cage—Delay Over the Peace Terms—China Ready to Punish Guilty.

Pekin, Jan. 2.—The murderer of Baron von Ketteler, the German minister, was beheaded yesterday in Kataman street, the principal thoroughfare of the capital.

The execution, which was under German supervision, took place at the busiest hour of the day. A great crowd was present. German troops kept order. The murderer was made to kneel on his hands and knees in the middle of the street, and he was kept in this position for half an hour awaiting the arrival of some German officers who wanted to see the execution.

In the meantime the executioner, sword in hand, stood beside the condemned man. They each wore bloody clothes. The pair had just officiated at eight other killings and did not have time to wash.

Laughed While Waiting.

The man who was so shortly to die was cheerful while waiting. He laughed heartily several times. He said that his name was an honored one and that he was an honest man.

Upon the arrival of the German officers the assistant executioner made a double wrap of twine about the man's neck, crossing the string under his chin. He then pulled on the twine and the man's cue, stretching his neck to the utmost.

Meantime the executioner put a knee between the man's shoulder blades and his hands on his head, then he jumped hard shoving the culprit's face into the dust, after which he stepped back took his sword and chopped his head off. Two blows were required to sever the head which was subsequently placed in a cage and hung over the street.

Delay Conference With Ministers.

An early meeting of the Chinese Peace commissioners and the ministers of the allied powers is not necessary. The fact of the Chinese accepting the demands of the powers and asking for a conference have temporarily placed the ministers at a disadvantage.

While it is not admitted that the ministers are afraid to meet the Chinese commissioners to be questioned, the former not having decided the details of what they want they have practically determined to call a halt for a time.

China Ready to Punish the Guilty.

It is learned from an official Chinese source that the Chinese commissioners wish the initiation of the question of punishment to come from the allies. They want the ministers to ask them what questions are proposed. They will reply but will not volunteer further punishment than has already been decreed until they are asked.

Disfranchises 25,000 Voters.

New Orleans, La., Jan. 2.—Today fully 25,000 voters were declared disfranchised in New Orleans. The vote of New Orleans is about 41,000, and to prevent disfranchisement every vote under the age of 60 was required to pay his poll tax by yesterday or be barred from voting for two years. Not more than 16,000 complied with the law.

BRILLIANT NEW YEAR WEDDING MABEL H. LEWIS AND JOHN L. WILCOX

Residence of Mr. and Mrs. F. F. Lewis Handsomely Decorated—Over 100 People Were Present.

Over a hundred people, many of them from out of town assembled at the Jackman street home of Mr. and Mrs. F. F. Lewis last evening to witness the marriage of their daughter, Mabel Barret Lewis and John Leonard Wilcox.

The house was charming in its holiday attire of evergreen and holly, ropes of which looped from chandelier to chandelier through the different rooms gave the color scheme of green and white.

At seven o'clock a quartet consisting of Misses Anderson and Palmer and Messrs. Mathews and Taylor with Mrs. J. F. Sweeney as accompanist, began the song cycle, "Captive Memories," by E. Nevin, and as the last notes of this exquisite love song died away the piano took up the melody and drifted into the more familiar strains of Mendelssohn's wedding march.

As Rev. R. C. Denison of the Congregational church took his place before a bower of white bunting interwoven with evergreen and holly, four young ladies, Misses Annie Valentine, Katherine Smith, Harriet Bost-

INVADERS OF CAPE OVER 5,000 STRONG

BRITISH IN SOUTH AFRICA NOW IN SERIOUS DANGER.

Lord Kitchener Unable to Stop Their Rapid March—Fourteen Men of Nesbitt's Horse Captured by Enemy—Burghers Now Range Over Vast Tracts of Colonial Territory

Colesburg, Cape Colony, Jan. 2.—Two hundred and fifty Boers captured fourteen men of Nesbitt's horse fifty miles southeast of Colesburg. The enemy, since increased to 800, has appeared near Weltevreden and is driving off the stock.

The Cape Town correspondent of the Daily Mail, which dwells upon the gravity of the situation in Cape Colony says:

"The Boer invaders now number over 5,000. The western invasion gives the most concern. It has split into two divisions, which are marching like prongs of a fork, one by way of Sutherland toward Malmesbury, and the other toward Beaufort West.

Rapid Invasion of the Enemy.

"The enemy are now ranging over immense tracts of territory, necessitating the employment of an army corps to deal with them. Lord Kitchener has poured troops into the disturbed areas, but the fugitive tactics of the Boers have to a large extent neutralized his precautions.

"It was felt that the only means of excluding the invaders from the western part of the colony was to call out the farmers. Today's telegrams promise a splendid response from the eastern portion, but the western is doubtful, not 30 per cent. of the population being regarded as loyal. Hence the Boer concentration in that direction.

"Letters are arriving here detailing damage and robbery by the invaders and beseeching military assistance. Any action on the part of the colony will not abate the urgent need of large reinforcements."

MANY CANDIDATES AFTER JONES' SEAT

Those After the U. S. District Attorneyship Await the Action of Senator Spooner.

La Crosse, Wis., Jan. 2.—As soon as Senator Spooner arrives in Washington, which will be tomorrow, it is expected here that a decision will be reached regarding the successor to the late D. F. Jones as United States attorney for the western district of Wisconsin. While this is recognized as being an appointment belonging to Senator Spooner there are quite a number of candidates who have sought the aid of Senator Quarles in securing the appointment.

W. G. Wheeler of Janesville is said to be a promising candidate, especially on account of his favorable geographical location. On account of the fact that the marshalship for the western district is held in northern part of the state it is not thought likely that a northern lawyer will be elected for the place, all other things being equal.

Miss Margaret Daly Married.

New York, Jan. 2.—Margaret Daly daughter of the late millionaire Marcus Daly and Carol Brown of Baltimore were married today at the Daly mansion. The ceremony was very simple only the immediate relatives and friends being present.

FIGHTER EXPECTED TO DIE.

Frank Welsh Lies Unconscious as Result of a Prize Fight.

Philadelphia, Pa., Jan. 2.—A boxing exhibition before the Cedar Park Athletic club of Philadelphia last night may end in a tragedy. The principals were Frank Welsh of Philadelphia and Paddy Donovan of Kensington, who were matched to fight twenty rounds at 115 pounds for thebantam-weight championship of the United States. The fighting was fast and furious from the very start. During the first five rounds the men seemed to be evenly matched. Welsh appeared, however, to be landing more blows than he received. Both men were strong when the ninth round was called, but when about two minutes of the round had elapsed Donovan landed a hard one on Welsh's stomach, and followed it up with a terrific right swing for his neck. Welsh fell to the floor like a log and the fight was over. Welsh was taken into the Cedar Park hotel unconscious. Dr. J. M. Reese, who was called, informed the gentlemen that Welsh was suffering from paralysis of the brain, and was in a dangerous condition. Chief of Police Sherry heard the statement of the physician and immediately arrested Donovan, Welsh's opponent; "Kid" Stein, one of the seconds; Timekeeper Madden and John Casey, all of Philadelphia. When he went to look for Referee McCloskey, the latter was missing. It is supposed he took an early train for Philadelphia. Welsh is still unconscious and there seems to be no hope for his life.

DROP FREIGHT AGENTS

Unconfirmed Rumor That Big Railroads Are Planning to Save Enormous Salaries.

St. Paul, Minn., Jan. 2.—The Pioneer Press this morning says there is being prepared in St. Paul a special train of seven cars, in which officials of nearly all of the prominent railroads of the country will visit the principal shipping points to study conditions, with a view of doing away with "fast freight" lines and local freight agencies. The plan is to have in each city one man to represent all the different roads. All freight business will be done through him, and he will see that each of the roads secures its share of the business.

At least 10,000 high priced railway officials, it is asserted, will be displaced, thus affording an enormous saving. But the main object of this "Community of Interests," is for the maintenance of traffic rates.

Pat Crow May Be a Prisoner.

Chadron, Neb., Jan. 2.—A man declared to be Pat Crowe, wanted in Omaha for the kidnapping of the son of Edward A. Cudahy, has been captured by officers from this city. It is insisted there is no doubt of the identity of the prisoner. He was taken on the Pine Ridge Indian reservation near Oelrichs, S. D., after a hot chase, which culminated in a race between the fleeing man, who was in a buggy, and the detectives on horseback.

Forty Couples Married.

Louisville, Ky., Jan. 2.—Magistrates in New Albany and Jeffersonville, just across the river in Indiana, the Gretna Green of Kentucky lovers, have done a rushing matrimonial business since the beginning of the holidays. On Christmas day forty couples were married there and since then there has been an average of fifteen weddings a day. Yesterday and today there were fifty marriages, making in all about 400 holiday weddings.

Heavy Snowstorm in Wyoming.

Cheyenne, Wyo., Jan. 2.—A general snowstorm has prevailed over the eastern central and central sections of Wyoming during the past two days. On Powder river and Salt creek the snow is very deep. Much difficulty in feeding stock is experienced, although no serious damage is reported as yet.

Woman Burned to Death.

Pittsburg, Jan. 2.—By the explosion of a kerosene lamp in Allegheny today, Lily Brown, aged 22, was burned to death, and her mother fatally injured. The fire department extinguished the flames before much damage had been done to the property.

Observes the New Comet.

Lick Observatory, Cal., Jan. 2.—The comet recently discovered by Giovanni Ciacciopoli at Nice, France, in the constellation of Tethys, has been observed here the last week by Mr. Alaken. It is a faint object of the eleventh magnitude, and therefore requires a telescope of considerable size to observe it.

Fire at Chicago.

Chicago, Jan. 2.—The first serious fire of the new year started in the Times building, once the home of the Chicago Times, Washington street and Fifth avenue. The loss is put at \$34,000, the D. A. Blodgett estate of Grand Rapids, Mich., owner of the building, being the heaviest loser.

Mr. and Mrs. A. L. McIntosh have returned from Viroqua, where they have been the past two weeks, the guests of Mrs. McIntosh's parents.

SAGE OF NININGER STRICKEN BY DEATH

Ignatius Donnelly of Minnesota, is Taken With Heart Disease.

UNIQUE MAN IN LIFE

Was a Prominent and Forceful Character in Both Politics and Literature.

AN EVENTFUL CAREER CLOSED

Minneapolis, Minn., Jan. 2.—Ignatius Donnelly, politician, author, sage, aged 70, died at 12:30 this morning. The eminent Minnesota politician was taken suddenly ill last night while visiting at the home of his father-in-law, Barton Hanson, 3022 Twenty-eighth avenue, South.

From the first Mr. Donnelly sank steadily and soon became unconscious. Dr. Murphy was summoned and when he arrived the sick man was still unconscious. The doctor pronounced it heart disease and said early in

IGNATIUS DONNELLY.

the evening that there was very little chance of the patient's recovery. Later Mr. Donnelly passed away surrounded by a number of his relatives.

From the first they understood that he could not live as he was well advanced in years, being 70 years of age, and it was a sorrowful little group that watched the bedside as the man whose name has brought honor to the state of Minnesota, lay gasping out the last faint spark of life. He died without regaining consciousness.

Sketch of His Life.

Mr. Donnelly was born in Philadelphia, Nov. 3, 1831. He was educated in the public schools and was graduated in 1849 from the Central High school of that city. He then studied law for three years in the office of Benjamin H. Brewster, afterward attorney general of the United States, and was admitted to the bar in 1852.

He emigrated to Minnesota in 1856 and engaged in the practice of law at Hastings. In 1859 he was elected lieutenant governor of Minnesota by the republicans. In 1861 he was elected lieutenant governor and in 1862 was sent to congress by the republicans of the second congressional district. He was re-elected in 1864 and 1866.

In 1873 Mr. Donnelly was elected to the state senate from Dakota county, and was re-elected continuously until 1878. In 1886 he was elected a member of the house for two years.

In 1882 he published his first literary work, "Atlantis, the Antediluvian world," a book which has passed through twenty-one editions in America and several in England, and was translated for publication in France.

His Great Baconian Theory.

He then put forth that one of his works, which has perhaps, attracted the most attention, "The Great Cryptogram; or, Francis Bacon's Cipher in the Shakespeare Plays," in which he claims to have discovered an arithmetical cipher in the great folio of 1623, depending upon the paging of that work.

He also wrote "Caesar's Column; a Story of the Twentieth Century," a work of which 60,000 copies were sold in one year, and which has been republished by three different firms in England and translated into Norwegian and Swedish. Another of his works was Dr. Huguet, published in September, 1861; 10,000 of his novel were sold in the United States in one month.

Mr. Donnelly was an ardent populist and a member of the Farmer's Alliance. In 1896 he became a middle-of-the-road populist and toward the close of the presidential campaign expressed dissatisfaction at the manner in which W. J. Bryan was conducting his fight. Then he announced his intention of retiring from politics, but he re-appeared in the late presidential campaign, and was nominated for vice president of the middle-of-the-road populist party. He died on Jan. 2.

SERVICES USHERING IN THE NEW YEAR

AT BAPTIST CHURCH 27 CANDI-
DATES WERE IMMERSUED.

Rev. J. T. Henderson Preached at the
Court Street M. E. Church—Social
Feature at the First Church—Mid-
night Mass at the Catholic Churches
—The Attendance Was Large.

Religious services appropriate to
the close of the year and the close
of the century were held at the dif-
ferent churches on Monday evening
in a manner characteristic of their
particular views. At the Baptist
church twenty-seven candidates were
received into church membership by
immersion. The services lasted from
7 to 8 p. m. and were conducted by the
Rev. Judson Kempton, of Mount Car-
rol, Ill., brother of the late Arthur
C. Kempton.

Rev. J. T. Henderson of the Pres-
byterian church was scheduled to
preach the sermon at the watch night
services at the Court Street M. E.
church, but at a late hour on Mon-
day afternoon felt too ill to leave the
house and was peremptorily ordered
by his physician to take no unneces-
sary risks. Under the circumstances
Mr. Hall would not permit him to
fulfill the contract and conducted
the services himself.

Prayer and song service occupied
the time from 9 to 9:30. The choir
was present and rendered two an-
them. From 9:30 till 10 the time
was occupied by an extemporaneous
talk by the pastor on the possibili-
ties suggested by the word "better."
It was shown to be a most progressive
and inspiring word in the language.
Incidentally the prevailing discon-
tent of human nature was defined as
the constant upward striving of the
soul for advancement.

Sociability reigned from 10 till 11,
followed by prayer and consecration
services, participated in by the room-
ful of earnest worshippers. William
Ross, county superintendent, spoke
on Divine Guidance as an incentive
to service. H. T. Arnold pointed out
the occasions where the most sincere
Christians fall short of what they
might attain. Senator J. M. White-
head spoke of Divine Wisdom as the
never-failing source from which all
may draw inspiration and help in
hours of trial and temptation. Dur-
ing the evening light refreshments
were served. The doxology was sung
just on the stroke of 12.

At the First M. E. Church the sup-
per and social features were con-
sidered in the middle of the evening,
commencing about ten o'clock. Tables
were arranged at which members of
the society were served with oysters,
coffee, fried cakes, etc. The men in
white linen coats acted as waiters.
At the conclusion of the supper
toasts were in order with E. A. Foley
as toast master. The toasts were
unique and the responses good and
stamped deeply with the individual-
ity of the speakers. Miss Clithero's
response to the toast, "How Old Are
You?" was extremely witty and might
well have graced a much more pre-
tentious banquet. Miss Wilson aged
about four gave a recitation that was
well received. More serious ser-
vices followed continuing until mid-
night. The attendance was large
and was animated with the spirit of
hilarity within the limits of rever-
ence.

The Mary Kimball mission was
crowded to the doors as it always is
when any program is arranged. The
services lasted till into the small
hours of the next day.

Midnight mass was celebrated at
both St. Mary's and St. Patrick's
churches with a good attendance at
each.

Altogether Janesville did its duty
by the old and by the new.

The night was ideal for the season
with a still sharp cold air, and a full
moon shining from a cloudless sky
upon the new fallen snow. Lights
were ablaze in uncurtained windows

with long, thin necks—you see

them in every school—want
Scott's emulsion of cod-liver
oil, to build up their poor little
shrunk scrawny bodies.

School will be of no use to
them. Something will carry
them off.

They have no play in them.
There is no fun in playing,
when everybody else can run

faster, jump further, turn round
quicker, and keep on longer.

Big head is the bane; let the

all over the city. The natural and
artificial illumination was beautiful.
All was serenity and silence till
just before 12 m. and suddenly the
clangor of bells rang out from the
church spires, whistles blew, guns
were fired and a gratifying din pre-
vailed. This continued at intervals
until 12:30 a. m. Tuesday and then the
jollifiers, having done their duty by
1900 and 1901, sought their respec-
tive couches. Welcome the coming,
speed the parting guest.

Chinese Emperor's Tea Garden.
The tea used in the household of
the Chinese Emperor is raised in a
private garden surrounded by a high
wall. At the time of harvesting the
pickers must wear gloves, must bathe
three times a day, and must abstain
from eating fish, lest their breath
should taint the aroma of the tea.

Man Sees for Alimony.
Reversing the usual order of things,
John Kiefer of Dayton, O., has sued
his wife for divorce and alimony,
charging infidelity and willful ab-
sence. Mrs. Kiefer owns considerable
property in her own right.

SCENE FROM "A HOLE IN THE GROUND."

"A Hole in the Ground" claimed
to be the funniest comedy Playwright
Hoyt ever wrote, comes to the My-
ers Grand on Monday evening, Jan-
uary 7. The phenomenal business
credited to this attraction warrants
the assumption that it is not only the
most amusing, but it has attained
the greatest popularity with theatre
goers of any of the productions for
which Mr. Hoyt is responsible.

The piece presents in a decidedly
amusing way a remonstrance against
the humiliating insults heaped against
the prevailing public by a less con-
siderate class of minor railroad em-
ployes. It also illustrates the an-
noyances which railroad officials have

to stand from the public.
Manager Peter L. Myers had the
pleasure last week of seeing Will-
iam Gillette in the play of "Sherlock
Holmes," now running in Chicago. He
says it is one of the big dramatic
hits of the season. It will be present-
ed in Janesville on Feb. 2.

"Peck's Bad Boy" company disap-
pointed two very fair audiences, Sat-
urday and night at the Myers Grand yester-
day. The actors were uniformly
incompetent and bad form top to
bottom. It was a cheap show. Man-
ager Myers was as much disappointed
in them as was anyone of the audi-
ence.

MISS FLORENCE HART MINER'S WORK IN METAL AND ENAMEL

Experience of the Talented Janesville Woman Among
the Celebrated Artists in That Line in
London—Highly Prized Souvenirs.

A few weeks ago the people of
Janesville had the pleasure of listen-
ing to an illustrated lecture on Wil-
liam Morris, by Prof. Zueblin, who in
the course of an evening's talk told
them more of this great artist and
craftsman together with his friends
and co-laborers, Edwin Burne
Jones and Dante Gabriel Rossetti,
than they could have learned for
themselves in a month's study, minus
the side lights he was able to fur-
nish.

To those who are responsive on
the artistic side it must be a mat-
ter of interest that in our city lives
a young woman who last year was
engaged in the same line of work
as William Morris and Burne-Jones,
who visited the same scenes, who
met some of the same people and who
breathed the same reverent artistic
atmosphere. This young woman is
Miss Florence Hart Miner.

Last February Miss Miner was ad-
vised by some of her artist friends
in Chicago and Boston to go to Lon-
don and study metal work and enam-
eling, as a step in advance of what
she had been doing in china decorat-
ing and work of that character. With-
out seeking chaperon or even a
traveling companion she went to
London and entered as a stu-
dent in the Arts and Crafts school
on Regent street. Through this
school and the acquaintances grow-
ing out of it Miss Miner had the good
fortune to meet Miss May Morris,
and the two young women became
close friends.

Those who attended the lecture
will recall the portrait of a woman in
a scene entitled "Day Dreams," the
original of which was first seen by
Morris, Burne-Jones and Rossetti at
the theater and pronounced by them
to be the most singularly beautiful
woman they had ever seen. The wo-
man afterward became the wife of
William Morris, and posed for some
of the best work done by these three
friends.

May Morris is the logical result
of the union of so admirable elements.
She is beautiful, artistic, and sincere
in her methods and absolutely des-
titute of affectation. Miss Miner was
entertained at the home of this
charming woman many times. The
house has not one unharmonious line
or blot. The mistress has abundant
means and delights to surround her-
self with beautiful articles of gen-
eral utility that bear the impress of
the true artistic spirit of their cre-
ators, and so have an abiding beauty

and value. She shows in her own
room, with pride and pleasure, a
Welsh chamber set of grey and blue
crockery, the first gift she remembers
to have received from her father.

Through Miss Morris Miss Miner
met Lady Burne-Jones, who opens to
the public her late husband's studio
on Sunday afternoons. She also made
the acquaintance of Fairfax Murray,
artist and collector, who has several
of the original cartoons of Raphael
and Michael Angelo. In his home are
at least thirty rooms, of which one
is devoted to Rossetti, one to Burne-
Jones, etc. In addition he has seven
Gainsboroughs, five Hogarths, and
other pictures practically beyond
price.

An attractive figure in this coterie
of artistic workers is Cobden-Sand-
erson, who is conducting a book bind-
ery after the style of the one found-
ed by William Morris. Miss Starr,
of Hull house fame, was apprenticed
to this gentleman and was very high-
ly esteemed by him and Mrs. Cobden-
Sanderson. He told Miss Miner,
speaking of her own work, that two
years more and she might hold her
own with any of the craftsmen in
her line. Another interesting ac-
quaintance was Emory Walker, who
was William Morris' private secre-
tary, and who regards him with some-
thing of the same reverent love felt
by many good Americans for James
G. Blaine.

Among the most highly prized sou-
venirs of Miss Miner's student life in
London is an artists' proof of the
Burning of Troy, from the Kelm-
scott, Chaucer, which Prof. Zueblin
spoke of at considerable length. The
design is the work of Burne-Jones,
and bears his initials which is his
stamp of approval. It was consid-
ered by himself to be his best work. The
proof was given to Miss Miner by
Mr. Catterson-Smith with the re-
man afterward became the wife of
William Morris, and posed for some
of the best work done by these three
friends.

Another is a necklace, the parting
gift of Miss Morris. Part of the beads
in its make-up were found by Pet-
rie, the Egyptologist, and were
buried in a fair neck they once
adorned eighteen hundred years be-
fore the Christian era.

In the course of a few weeks Miss
Miner goes to Chicago to give in-
struction in the work she studied
while in London, and if fate is propi-
tious she hopes to return to that
city for a season to perfect herself
in a class of artistic work to the
value of which the American people are
just awakening.

OREGON IN NEED OF GOOD DAIRYMEN

R. K. Carlson, Formerly in That Busi-
ness in Rock County, Writes
Comparing the Conditions.

An interesting letter has been re-
ceived at this office from R. K. Carl-
son of Portland, Oregon. Mr. Carlson
was formerly a resident of Footville,
and operated several creameries,
in which business he is still engaged
in his western home. His letter can-
not fail to be of interest to young
men who are looking for a location
a little less crowded than right here
in Rock county. Mr. Carlson's letter,
in effect, is as follows: The principal
thing lacking here is good, energetic
dairymen. This country has as
bright a future as any on the contin-
ent, with good climate, water, mar-
kets and good and cheap land that
will average about one-half of that of
Rock county and some even less. The
people have raised wheat and hops,
have hunted, fished and mined, and
are poor as a rule the exceptions are
those who have turned their atten-
tion to dairying and they are well-
to-do.

The farmer here is in reality a pros-
pector, wanting to find a fortune
quick and easy. If there were the
same energy and honest effort here
as in Wisconsin, with our superior
advantages, there would be from one-
third to one-half more engaged in the
dairying business than with you. I
know of a number of well improved
farms, which the owners would stock
up in good shape if they could secure
competent dairymen to operate them.

The young men of today seem to
lack the ambition of their fathers,
who ventured into the then far west
and settled up and improved Wiscon-
sin. They seem to rest content with
the idea that there is no more oppor-
tunity; that everything has been ac-
complished, and so remain where
they are. If they would but follow in
their fathers' footsteps and move a
few degrees west they would find
better opportunities than their fathers
ever knew—opportunities that are
wide open and pining for some one to
take hold of them. Here there is
equally as good soil, far better climate
a much better country to live in, and
natural scenery beyond description.

Accompanying the letter
was a clipping from an Oregon
paper giving details on the same top-
ic. It states that Minnesota butter can
be sold in the mining towns of Ore-
gon cheaper than the home made arti-
cle. There are two reasons for this,
viz: The high price at which Oregon
creamery is held, and an insufficient
supply. The article says in conclu-
sion:

"The outlook is encouraging for
Oregon utilizing its advantages.
There are extensive plans under way
for increasing the creamery output
for the coming year. The principal
need just now is the scarcity of dair-
ying cows to supply the milk. The
more progressive breeders and farm-
ers and dairymen are meeting this
need as rapidly as possible through
importations of large numbers of
dairying strains. In several direc-
tions, just as soon as the milk sup-
ply is guaranteed, will be estab-
lished large creameries."

Notice To Stock Holders.

The annual meeting of the Cit-
izens' Mutual Fire Insurance com-
pany will be held at the office of the
Janesville Clothing company on Mon-
day evening, January 14, 1901 at
7:30 o'clock for the submission of the
annual reports of its officers. The
election of directors and the trans-
action of such other business as may
come before the meeting. By order
of the president.

Good Job For Wheeler.

A despatch from Madison to the
Milwaukee Sentinel, announces that
former Assemblyman W. G. Wheeler,
of Janesville, may be appointed
United States district attorney for
the western district of Wisconsin, to
fill the vacancy occasioned by the
death of David F. Jones. The ap-
pointment of Mr. Wheeler would be
entirely satisfactory, as he a young
man of brilliant qualities. But this is
not all. Mr. Wheeler has been in
training for succession to Congress-
man Cooper, and the friends of Mr.
Cooper would not have been surprised
had Rock county sprung his candi-
dacy at the next congressional con-
vention in 1902. A provision for Mr.
Wheeler, with this position, which is
worth in salary as much as the of-
fice of congressman, will undoubtedly
remove any possibility of opposi-
tion and leave Mr. Cooper a free
field again in 1902.—Racine Journal.

THE FAILURES OF 1900.

The Dan and Bradstreet commercial agencies report over 10,000 business failures for the year 1900. A larger number than for the previous year, yet they say that business is good and the outlook very encouraging.

The increase in the number of failures is easily accounted for, notwithstanding the fact that it was an exceptionally good year for business. There has never been a time in the history of the country when money was as plenty as during the past twelve months. It has not only been plenty, but it has been eager for investment, and as a result millions of dollars have been risked in all sorts of enterprises and speculations that in ordinary times would not have received attention for a moment.

Money in itself is the most helpless commodity in existence. It will lie idle in a vault for a year, or for an indefinite period without increasing in value or contributing to anyone's welfare, and it will continue to be idle and helpless until somebody's brain puts it in circulation. It may be the brain of the man who owns it, but it is more likely to be the brain of some other man who piggybacks a scheme for investment where the chances for security and profit look reasonably safe. In such times all sorts of business enterprises are organized and floated by men who have more brains than money.

John Windy Hamilton comes along, and everybody that knows him admits that he was long on brains. He unlocks idle money and scatters it to the four winds. The year 1900 was noted for brains of the Hamilton stripe. Men who can present on paper business enterprises that would raise hair on a glass bottle. Money was so plenty that millions of dollars were invested in all sorts of industrial stocks that never had a foot of land nor a dollar's worth of anything behind them. These investments were not exceptional, but were general, in all of the large money centers, and there could be but one result, and that was failure in a degree equal to the crazy investment.

The history of the year shows that all kinds of legitimate business was prosperous, and in spite of these large speculative losses, the business world was undisturbed.

Over-confidence, or the lack of confidence, are the causes of numerous failures in any given year. In good times, when everybody is making money, capital is so eager for investment, that any kind of a brain that can concoct and present a plausible scheme, is entrusted with it, and in hard and panicky times, the best business brain of the country is frequently unable to do business, because capital cannot be obtained, for money in itself is not only helpless, but is also the greatest coward in existence. In hard times no bank is safe to hold it, and millions of dollars hides itself in stockpiles, or holes for safe keeping. At such times you couldn't induce it to show itself with a government bond, on a silver platter.

There is nothing alarming about the failures of 1900. They were largely of the speculative class, that do not belong legitimately to the commercial world.

AMERICAN ENTERPRISE.

It is gratifying to know that America enters the new century leading the procession of nations in the value of exports. The United States has been forging rapidly ahead during the past four years, distancing all nations except the United Kingdom, and passing her on the last quarter stretch. The nation is recognized today, not only as the great cereal producing nation, but as the great manufacturing nation of the world.

Two or three things have contributed to this wonderful conditions. The first, American enterprise and ingenuity, both of which are without a parallel. Chicago capital is now building four ocean freighters that will cost \$1,000,000. They will be loaded with machinery and manufactured goods, and sail from Chicago for the old world early in April. So far as heard from, no subsidy is expected.

The second is a wise administration that possessed the foresight and courage to adopt a protective tariff that enabled our industries, not only to get on their feet, but to walk out independently and meet the world's competition. It accomplished more than this, for the encouraged industries took on new life, until every wheel in every factory, everywhere throughout the broad land, was turning, while American labor, contented and happy, contributed to the busy within our borders.

Mr. Bryan says the question of his candidacy for president will be determined by events. What a philosophical view for him to take!

The "Wizard of Wall Street" has retired—probably to edit a weekly journal on finance.

Hot soup served free this week at Dedrick Bros.

The city schools reopened today, after ten days' vacation.

steady stream of money flowed in. The individual prospered and the nation prospered, until four short years filled a bankrupt treasury with abundant wealth.

The wise administration did more than this. It settled for all time the question of national honor, so far as sound financial policy was concerned, and today American securities are in brisk demand in all the markets of the world.

If the Ship of State is wisely handled American enterprise will continue to reap the rewards to which it is entitled, and before the new century is fairly on its feet, many long strides will mark an era of rapid progress.

THE DISTRICT ATTORNEYSHIP

Senator Spooner will make no mistake in recommending Wm. G. Wheeler for appointment to fill the vacancy caused by the death of Judge Jones. There is no county in the state that is any more loyal to Senator Spooner than Rock County, and there is no man in the county that would receive a stronger endorsement than Mr. Wheeler. He belongs to the class of men that combine ability with popularity and his name is familiar throughout the state. The people of Janesville as well as of the county have a peculiar interest in him, because he is a product of the county seat town. They have watched his development from boyhood and have rejoiced over the successes that he has won. His ability was not recognized until he was elected to the office of District Attorney when opportunity was given to show "the stuff that is in him," and he showed it with a credit to himself and honor to the office that he represented.

He was a leader in the assembly, and would have served another term, undoubtedly as speaker had he permitted the use of his name.

Mr. Wheeler is a growing man. He has not yet attained the full measure of his stature. That he is competent to fill the office of United States district attorney and fill it well, is conceded by all who know him. His many friends will be glad to have the honor of the appointment come to him, and the Gazette voices the sentiment of the county as well as a liberal sentiment throughout the state in saying to Senator Spooner, "Kindly consider Mr. Wheeler's name."

A VETERAN RETIRES.

This is not an obituary, but simply a word of commendation for the veteran railroad man, Henry Crane, who after half a century of faithful service, retired yesterday from active work. Mr. Crane belongs to the class of men who make it possible for railroads to make money. Faithful, energetic, watchful, untiring, and very capable, he rendered the Chicago & Northwestern railroad a lifetime of service that is rarely paralleled. People who had occasion to travel over the line to Chicago frequently expected to meet Mr. Crane somewhere along the road just as much as they expected to see the conductor, and they were seldom disappointed. He was a busy man the year around, and the result of his work will be a monument to his railroad life for many years to come. It is unfortunate that such men have an age limit placed upon them, for while Mr. Crane may appreciate the rest that he has so richly won, he is still in possession of all his faculties and capable of rendering most efficient service.

The Gazette expresses the sentiment of his many friends in congratulating him upon a long and successful career, and wishing him many years of happiness in the more quiet life that he assumes.

Raised Flag at Half Mast.

Ex-Assemblyman W. H. Tripp of the town of Rock raised his flag the last day of the nineteenth century at half mast. He also raised the same flag the first day of the year 1901 and the first day of the twentieth century. He is nearing the eightieth mile stone and is strongly of the opinion that he will not attempt to raise the same or any other flag at the close of the present century.

REETED FRIENDS ON NEW YEARS DAY

MANY BRANCHED OUT IN A SOCIAL WAY YESTERDAY.

Art League Reception Was a Feature of the Day at the Home of Mrs. Child and Mrs. Murdoch—Some Other Receptions and Entertainments.

Monday evening was a very popular time for entertaining. Many who not often indulge in this hospitable pleasure branched out in a social way, and numerous clubs, cotillions and neighborhood clans took occasion to pay off social obligations. Facts connected with the festive past were favorable to a prediction from the beaten track, and the auguries for the future pointed toward much better rather than worse conditions.

Following is a list of a few of those who greeted their friends under their own roof tree:

Art League Reception.
New Years day was pleasantly observed by the ladies of the Art League by their reception at the home of Mrs. Child and Mrs. Murdoch from four to eight yesterday afternoon.

The spacious home was beautifully decorated with holly, palms and ferns. The mandolin orchestra, stationed in the lower hall discoursed sweet music, and the reception committee consisting of the officers headed by Mrs. Tanberg, the president, welcomed the visitors in the parlors. Light refreshments were served from a table in the dining room, prettily decorated with smilax and ribbons of violet, the club colors, while different ladies of the league presided at the coffee urn during the afternoon and gracefully attended to the wants of their guests. Late in the evening a visiting delegation from the rural districts paid a brief call and were warmly welcomed, and heartily entertained in spite of their rather eccentric manners.

Together the affair was a brilliant success and the ladies of the league are to be congratulated upon their first New Year's reception.

The dance given by the A. O. H. society at Assembly hall on Monday evening was well attended, about 125 couples gathering at this time and spending a most enjoyable evening.

The Caledonian society gathered at their rooms New Years eve and watched the old year out and the New Year in. Dancing and games were indulged in to pass away the time.

Company I held a social dance at their armory and a goodly number of couples were present.

The Kibitzesposhe club met at the home of Mr. and Mrs. W. T. Sherer, 118 Madison street to watch the old year out. Each member came dressed to represent some book and prizes were given to the one guessing the greatest number of books. Mrs. John Fuller Sweeney was awarded first prize and Judge C. L. Fifield, the second. The balance of the evening was spent in playing whist. Mrs. J. F. Wortendyke won the first prize and A. F. Spooner the second.

The Jolly Sixteen club held a progressive meeting Monday evening and spent the different hours of the evening going from on home to another until the old year passed and the new year arrived. The party started at eight o'clock at the home of Mr. and Mrs. T. S. Jessup and ended at midnight at the home of Mr. and Mrs. B. C. Jackson, where a tempting lunch was served.

Mr. and Mrs. J. T. Wright observed the passing of the old year with fitting ceremonies. A number of their friends were invited in and a good time was enjoyed by all.

Miss Mary Ludolph entertained a number of her young friends at her home on South Jackson street Monday evening. The evening was pleasantly spent in playing different games and it was 1901 before the party broke up.

On Monday evening at the home of Mr. and Mrs. Orion Sutherland Mr. and Mrs. W. K. Shattuck entertained a party of young people in honor of Miss Mabel Lewis, who was married to John Leonard Wilcox of Chicago last evening.

Misses Ruth Culver, Mabel Jackson and Ruth Nash kept open house yesterday at the home of Miss Culver on Court street. Elaborate refreshments were served and the ladies' gentlemen friends had the pleasure of wishing them a propitious century.

An enjoyable New Years dinner was held yesterday at the home of Mr. and Mrs. M. H. Gibbs, 6 Clifton street. It was the annual reunion of the family and four generations were represented at the table, the oldest being ninety-eight years and the youngest two years. Eighteen members of the family were seated at the table. It was a highly enjoyable affair.

The Nonesuch Club met at the home of Mr. and Mrs. F. P. Starr on New Year's eve. Mrs. T. H. Mason won the first prize, and Mrs. James Erie the consolation prize. Refreshments were served, followed by a doctory party, Mrs. Bert Gage winning the first prize.

Many spectators were present at Fof. K's juvenile dancing class Monday evening. There are a number of very pretty children in the class, and they are a little dancers.

LIVE PIGEON SHOOT AT ATHLETIC PARK

Son, Carter and Brown Won First Money—Four Matches Shot With 7 Birds Each.

The Janesville shooting club held a very enjoyable live pigeon shoot at Athletic park yesterday. The day being cold and clear the birds left the traps like lightning and it took some good shooting to stop them. The snow on the ground interfered very much when a white pigeon left the traps as it was almost impossible to see them and a number of birds were lost on that account.

The cold weather kept a number of the home shooters away from the grounds so there was not a large number of entries. The shooting was done from three ground traps thirty yards rise, use of both barrels, American association rules to govern.

The four matches shot were at seven birds each, entrance \$3 and resulted as follows:

Harry Son.....	1	2	3	4
H. G. Carter.....	5	4	3	6
Frank Brown.....	6	3	4	5
H. H. McKinney.....	3	5	5	3
C. Shannon.....	4	2	5	3
W. McVicar.....	4	2	5	3
C. Schwartz.....	4	2	5	3
A. C. Jenkins.....	4	2	5	3
Wm. Koerber.....	4	2	5	3

In the first match Brown and Carter divided first money; Shannon, McVicar, Son, Schwartz, second; McKinney, third.

In the second Brown won first money, Shannon and McKinney second and Carter and Jenkins, third.

In the third, Carter first; McKinney, second; Son, third.

In the fourth, Son won first; Carter and Jenkins and Shannon, second; McKinney, Brown and McVicar, third.

DICK DECIDES IN FAVOR OF TAYLOR

Indian Ford Water Power Company

Restrained From Drawing off Koshkonong Lake Water.

The case of Taylor against the Indian Ford Water company which was tried before Judge Dick last spring has been decided by him in favor of Taylor. Taylor brought an action against the water power company restraining them from drawing off the water in Lake Koshkonong claiming that it injured his property on the lake shore which was used as a summer resort. He asked that the water power company be restrained from drawing all of the water out of the lake in time of dry weather and from flooding all of the adjacent property by keeping the gates of them closed in the spring and rainy times. The supreme court has already decided that a water power company has no right to keep the stage of water in the lake at such a level that it will be detrimental to the surrounding property, but must maintain it at some where near the same level during the season. The case will in all probability be appealed to the supreme court.

HOLIDAY SWEETS.

How to Make Several Popular, Simple and Pure Candies.

Coconut Candy.—Use a good sized thin-bottomed kettle or saucepan. Put in one cupful of sugar, one cupful of molasses and a piece of butter the size of an egg and boil until a little, dropped into cold water, can be rolled into a firm ball. Take from the fire and stir into it as much grated coconut as possible. Mold into balls or cones and stand on a buttered plate till cold.

Peanut Brittle.—Put one cupful of molasses, six cupfuls of brown sugar and one cupful of water in a deep kettle and boil until, when dropped in cold water, it can be rolled to a hard ball between the thumb and fingers. Add three pints of shelled and broken peanuts, boil five minutes more, then add two heaping tablespoonsful of butter, take from the fire and stir till the butter is melted. Add one teaspoonful of baking soda and stir quickly. As the candy begins to rise pour at once on well greased pans, spreading as thin as possible.

Chocolate Caramels.—Boil slowly together one pound of brown sugar, half a cupful of molasses, a quarter of a pound of grated chocolate, half a cupful of cream and one tablespoonful of butter and it is like very thick molasses. Take from the fire, add one teaspoonful of vanilla and pour into straight-sided buttered pans, marking in squares when partly cold.

Sugar Caramels.—Roll together one pint of granulated sugar and one and a half cupfuls of rich cream. Have a steady, rather slow fire and stir occasionally until a spoonful dropped into ice water can be rolled by the thumb and fingers to a hard ball. Take from the fire at once, add one teaspoonful of vanilla or any kind of flavoring and pour into well buttered tins. When partly cooled, mark off in squares.

Pulled Peppermints.—Boil together three cupfuls of granulated sugar, one and a half cupfuls of water and a quarter of a teaspoonful of tartaric acid until, on trying in cold water it will almost crack, but if held a moment can be rolled into a hard ball. Do not stir, but pour into a buttered dish to cool. As soon as it can be handled add a teaspoonful of extract of peppermint and pull until it is white, then cut in sticks.

Cream Candy.—Boil together two cupfuls of granulated sugar, half a cupful of cream of tartar, a teaspoonful of vinegar and a cupful of water until it will snap when dropped in cold water. Pour at once on a greased platter and pull when cool enough to handle.

Butter Scotch.—Boil together two cupfuls of granulated sugar, half a cupful of molasses, a cupful of butter, one-third of a cupful each of vinegar and water. Cook steadily until, when a little is dropped in cold water, it will snap. Pour at once into shallow pans; do not have it more than a quarter of an inch thick. Mark into squares before it hardens.—Table Talk.

KIDNEY TROUBLE.

Like most serious diseases, often has so small a beginning as to pass unnoticed. Generally it starts with a cold, followed by a chilly feeling and pain in the small of the back. The kidneys then become weakened, and are unable to perform their natural work of filtering the blood, in consequence of which the blood is pumped back through the body with all the wasted tissue, Uric Acid and other impurities which it has gathered, and which rightly should have passed off through the kidneys.

The effect of this is disastrous, producing a complication of the severest forms of kidney trouble, including Bright's Disease, Bladder Troubles, Dropsy, Gout, Rheumatism, Diabetes, Gravel, Scalding of the Urine, etc. These serious complications

Can be Cured

—BY—
Only a remedy which will act swiftly, safely and surely. It must get at once to the seat of the disease, speedily remove it (without driving it simply to some other organ), strengthen and heal the kidneys and assist them to perform the work imposed by nature of filtering the blood and ridding it of all impure and waste matter. Such a remedy is

JOHNSON'S KIDNEY PILLS

They contain nothing that can in any possible way derange or injure the system. They simply assist nature to utterly expel all poison from the system and heal the wounds consequent on its presence. The first few pills have the effect of immediately cleansing the kidneys of every impurity, and gradually they so heal and strengthen the organs that they can perform their whole duty unaided.

JOHNSON'S KIDNEY PILLS have absolutely cured the severest forms of kidney disease. They have never failed with proper use and we guarantee a cure whenever directions are followed, or your druggist will refund your money.

Omega Oil

My goodness, how a sprain does hurt! And it isn't the pain alone that is to be dreaded, but the loss of time and wages. There is today many a person with a sprained wrist, elbow, hip, back, knee, or ankle who is unable to work, and is losing many a dollar in wages. What a pity it is that these people won't get a bottle of Omega Oil and cure themselves! Why don't they rub their sprains with this green-colored liniment, and get back to their work again? Maybe they'll try

Omega Oil some of these days, and then they'll find out for sure that there's one liniment in the world which can be depended upon to cure sprains, bruises, strains, swellings, and all other bodily aches and pains. It is good for everything a liniment ought to be good for.

Never take a substitute for Omega Oil. If your druggist persistently refuses to give what you ask for, the Omega Chemical Co., 257 Broadway, New York, will mail you a bottle, prepaid, for 50c. in cash, money order or stamps.

ROLLER POLO TEAM WILL BE ORGANIZED

George Bates, The Racine Polo Expert, is in the City For That Purpose.

PELIER JOHNSON CAPTAIN OF THE HORLICK TEAM, RACINE.

Janesville is soon to witness a revival of the sport once very popular in the city, namely roller polo, and according to parties interested, the game will be as well attended and as popular as in the old days when the crazy and the old were crowded to the rink that the "world" Janesville team was to play a match game with the Racine team. A. Taylor & Co., the present movers of the services of the Racine team to coach, have been organized.

Hotel Myers, said this morning to a reporter for the Gazette:

"Janesville has plenty of good talent for a team and as the game was always popular here, I look forward to the organization of a good team. Mr. Taylor has ordered polo sticks, balls and other paraphernalia from Chicago and I shall begin to get the players into shape at once. Two teams will be formed this season and the best players in each shall eventually play in the regular team. The first outside team will probably be the Horlicks of Racine who will play the Janesville team in the future."
